

I am deeply concerned about the thought of expanding LPFM. I am an every day listener of the Christian station K-love radio and worry that LPFM would make it so I and many thousands of listeners won't be able to listen to our wonderful station. K-love listeners are found all accross the U.S. and many would be effected if it was taken off the air in certain communities. K-love offers music that is uplifting and something any parent would want their child listening to. It offers truthful news from accross the globe, and the people on Klove radio offer hope to people that need it. Please don't let anything interfere with this station whom many go to for hope, joy, peace and the truth. For some it's the only place they can turn to for the enouragement they need. Thank you for your consideration.
